

PG Circuit Breaker

The PG DIFFERENTIAL / subscriber circuit breaker will be of the overcurrent protection with fixed setting for the disconnection. The rated current of PG Circuit Breaker will be adjustable from 5A to 60A, and the user can set up specified current to protection against overload, short circuit and against electric shock for the other overload settings.

The PG DIFFERENTIAL subscriber circuit breaker incorporates a double protection against: overcurrent by means of bimetal .

2 Pole(1P+N)

Adjusted rated current	5A,10A,15A
	10A,15A,20A,25A,30A
	15A,30A,45A
	30A,40A,50A,60A
Rated Voltage	220VAC to 250VAC
Leakage current	300mA ; 500mA
Standard	NFC61450

4 Pole(3P+N)

Adjusted rated current	10A,15A,20A,25A,30A
	15A,30A,45A
	30A,40A,50A,60A
Rated Voltage	220VAC to 250VAC
Leakage current	300mA ; 500mA
Standard	NFC61450
